Recognition of other TUEs by IWAS

If the athlete already has TUE, which is issued by his National Anti-Doping Organization or the International Federation, and if this TUE meets the criteria of the International Standard for Therapeutic Use Exemptions (ISTUE), IWAS recognizes these TUE.

In this case, the athlete should submit his existing TUE given by IF or NADO to IWAS alongside with supporting medical documentation for consideration of recognition by TUEC Committee.

If IWAS does not consider a TUE issued to an athlete satisfying the criteria of the ISTUE, IWAS refuses to recognize this TUE, informs the Athlete and his National Anti-Doping Organization on this and requires the Athlete to apply to IWAS TUE Committee for TUE.
