Motions Information Sessions

As previously communicated, IPCH will host two informal information sessions in the weeks leading up to the Sport Congress to discuss motions and proposals submitted by IPCH and Member Nations. These sessions will provide an opportunity to ask questions, seek clarification and develop a shared understanding of the proposals ahead of the Congress.

Member Nations are strongly encouraged to review the Congress package and submitted motions in advance and participate in the relevant information session(s). This preparation will help ensure that the Sport Congress remains focused and productive, allowing more time for substantive discussion, decision-making and voting.

The information sessions are scheduled as follows:
